Jonathan Nicolas Escobar

Software Developer

San Luis, San Luis, Argentina

About me

I am currently in my final year of a Software Development Technician's Degree, where I have acquired solid knowledge in programming, databases, and software architecture

I consider myself a proactive, solution-oriented person with a strong teamwork skills. I enjoy solving technical problems and continually learning new tools and technologies.

My goal is to continue gaining experience in software development, participate in challenging projects, and continue growing professionally as a developer.
